Click **Install.**

Step 4: Installation completed.
Click **Finish**.

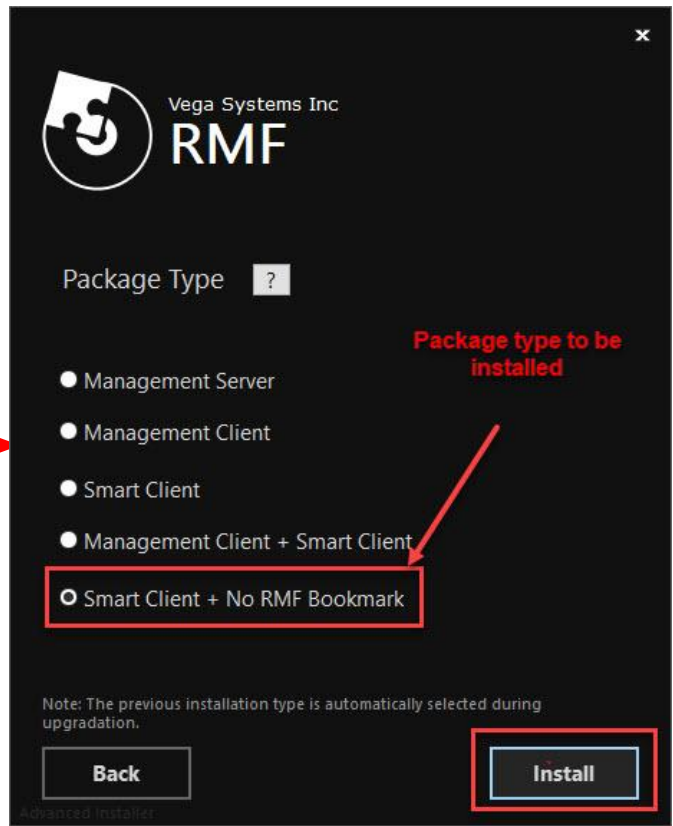

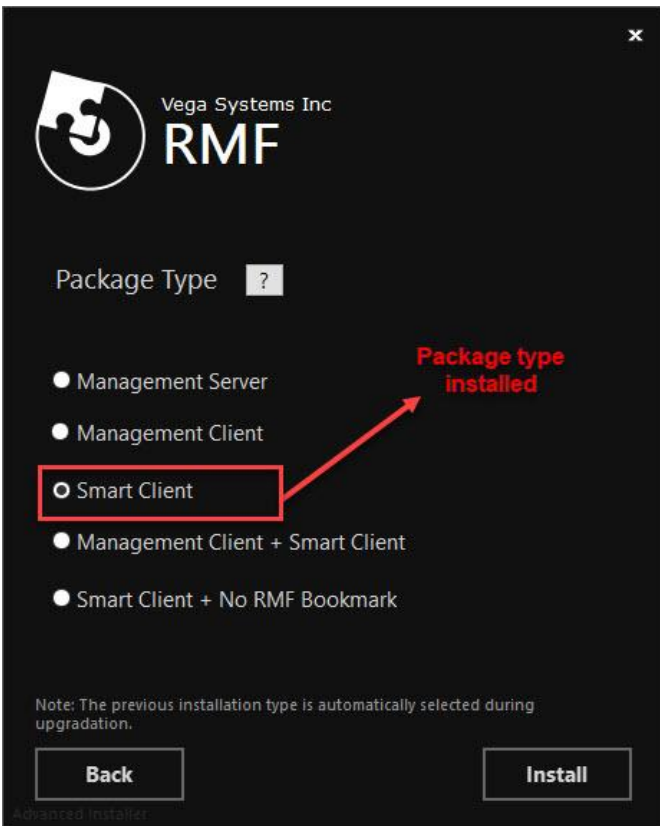

RMF Modification Process

RMF Modification Possibilities

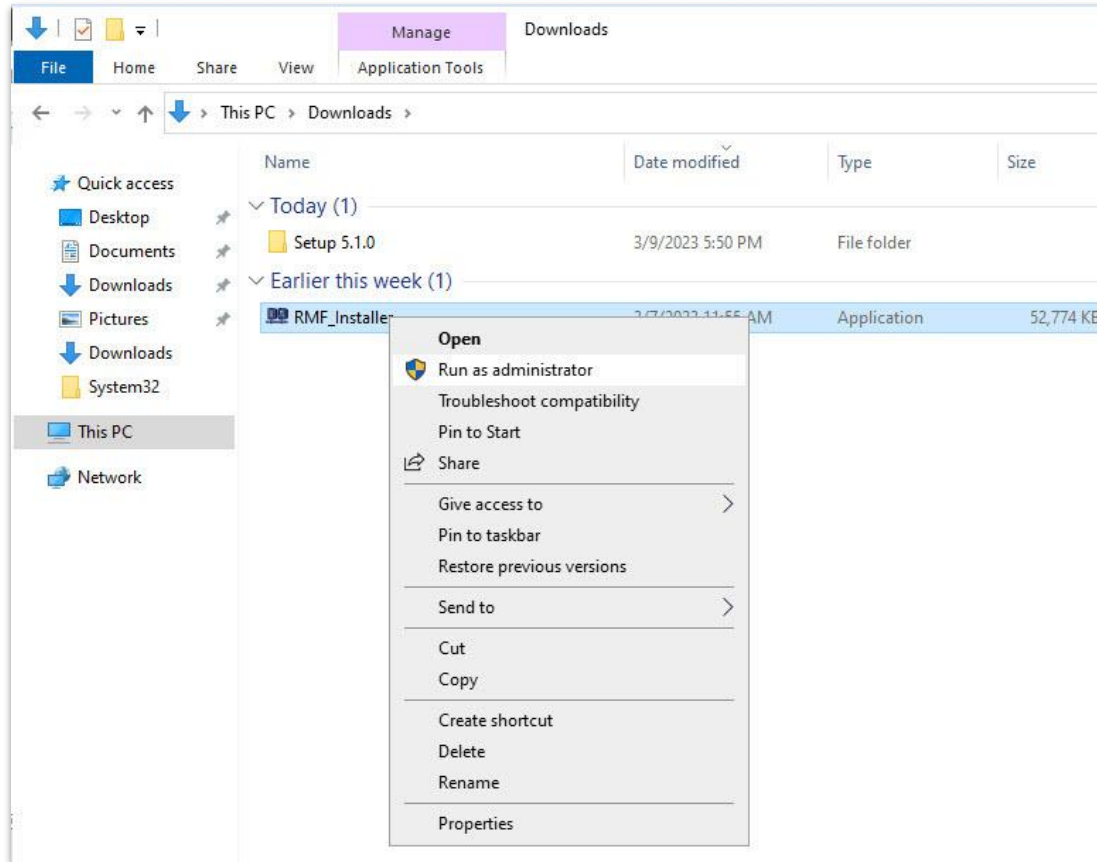

Modifying RMF on Smart Client Machine

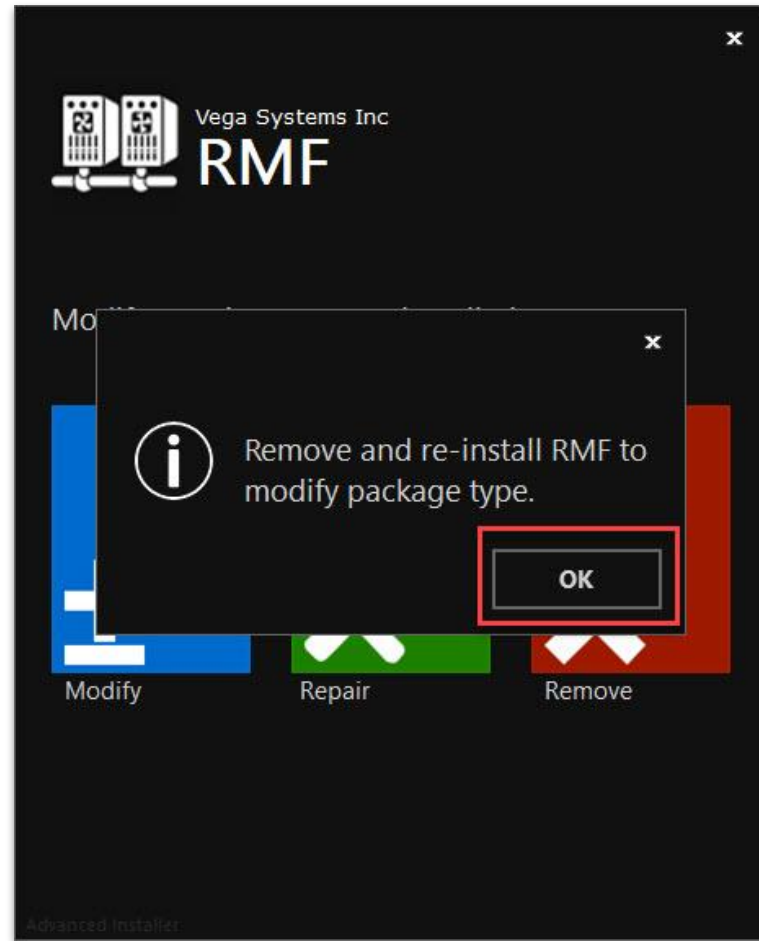

Proceed with the modification process if it is necessary to change the installed package type to another package type.

For instance, Smart Client package to Smart Client + No RMF Bookmark package.

Step 1: Run the **RMF 5.2.0** installer on **Smart Client Machine**.

Step 2: Select **Modify**.
Remove and Re-install RMF to Modify Package Type.

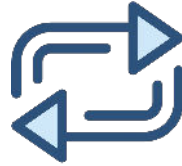

Step 3: Refer to [Remove RMF](#) for removing RMF.

Step 4: Refer to [Install RMF](#) to re-install RMF.

Note: Select the appropriate package type when installing RMF.

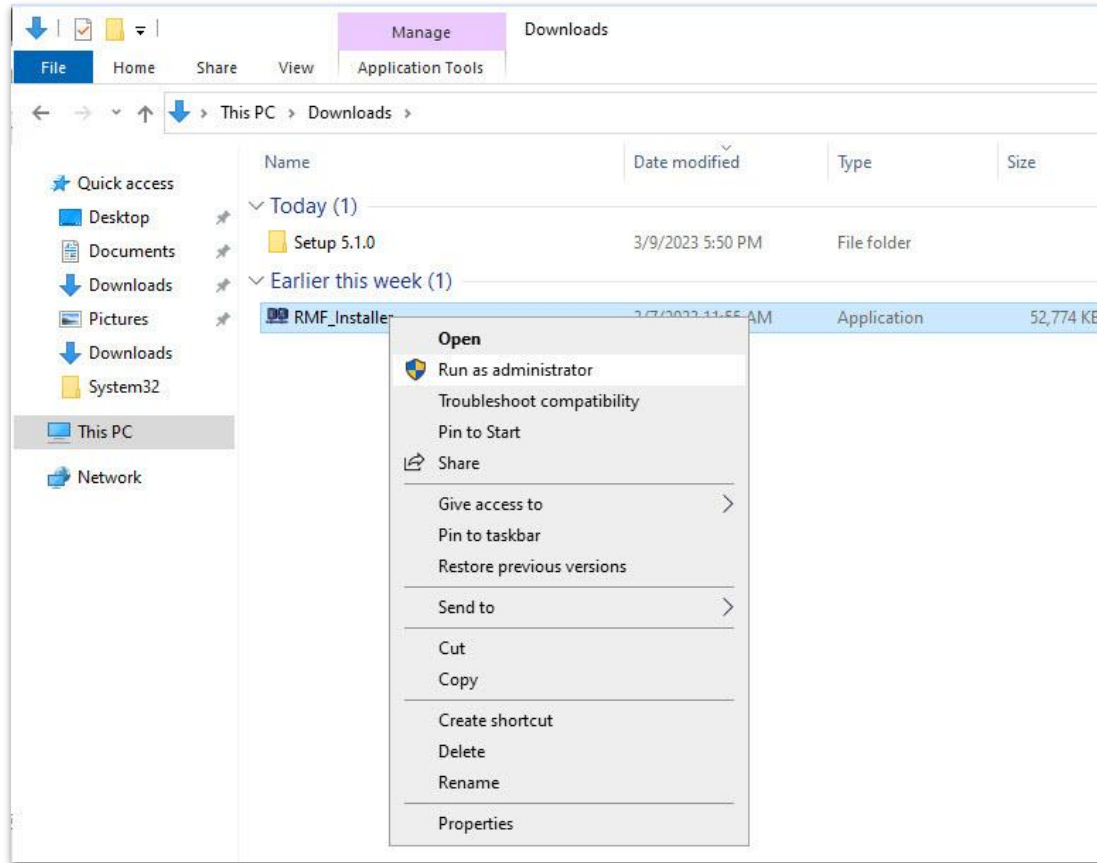

Follow the same steps to **Modify RMF on Smart Client Machine + Management Client Machine** or any other machine that has RMF installed.

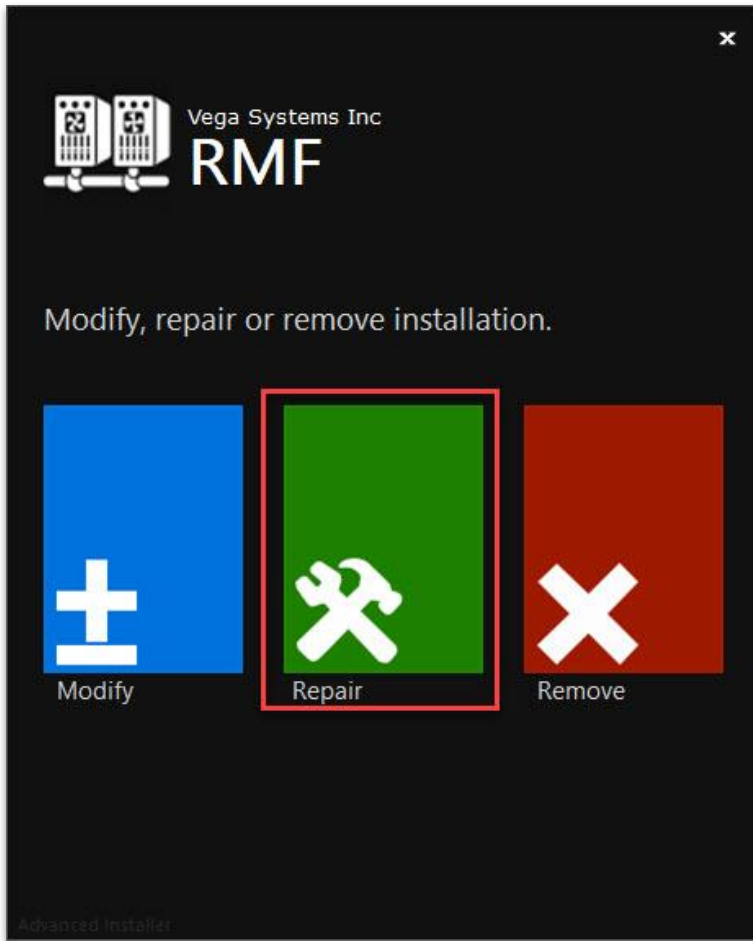

RMF Repair Process

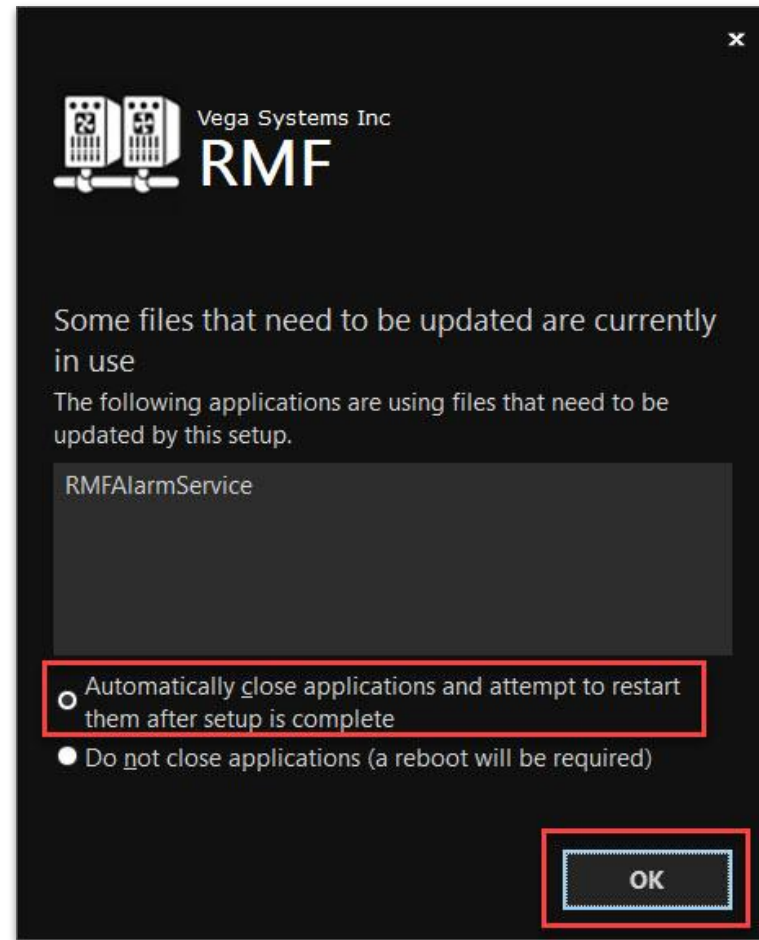

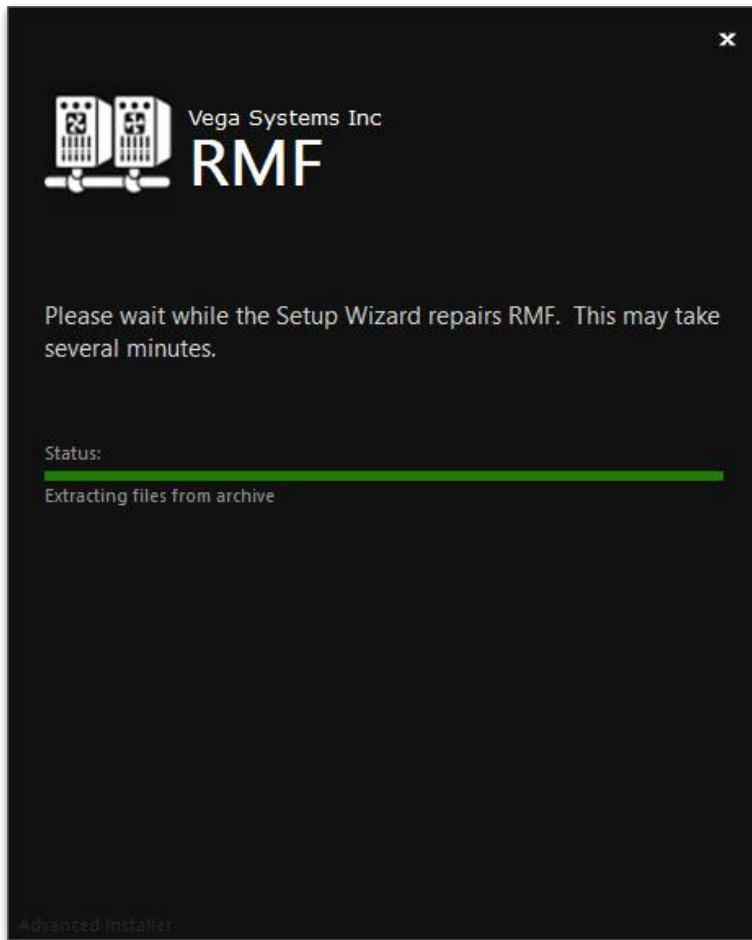

Repairing RMF on Management Server (Parent Site)

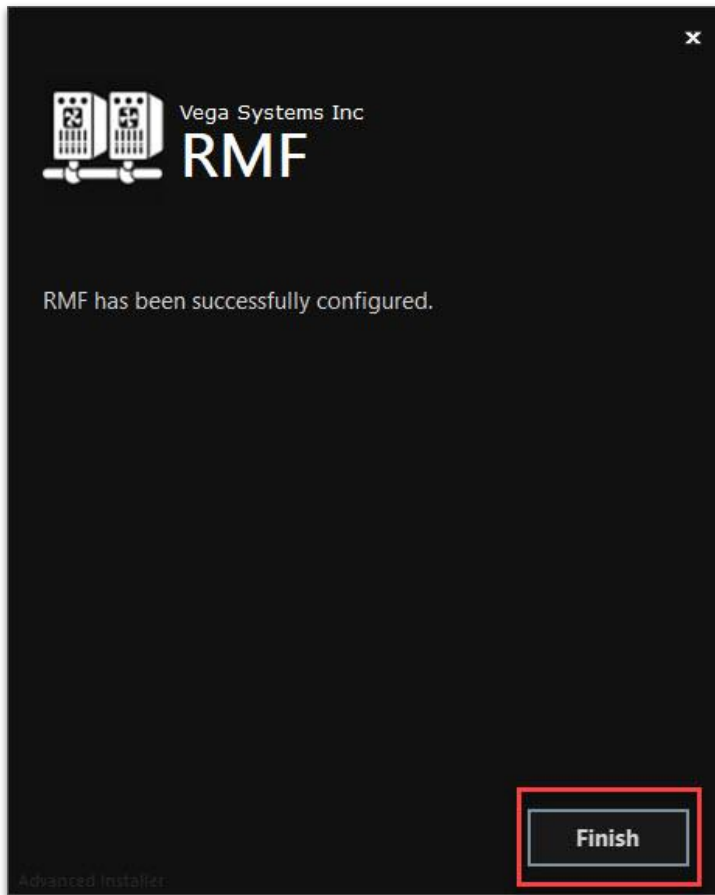

Step 1: Run the **RMF 5.2.0** installer on **Management Server** (Parent Site).
